

Thanks to CVG, we have the following round-up of reviews from many of the major video game websites. As you can see, the comments and scores so far are unanimously positive, unlike other recent superhero releases like Spider-Man: Edge Of Time and X-Men Destiny. To check out the sites take on Batman: Arkham City, click on the link below to check it out. OXM 9/10: "A different Arkham, but excellent all the same". Destructoid 8.5/10: "When it's all said and done, you'll be begging for more, but not because there wasn't enough. It is just too damn fun to be The Bat". Metro 9/10: "Not just the best superhero game, but one of the greatest action adventures ever made - set in an expansive and engrossing virtual world unlike any other". IGN 9.5: "Batman: Arkham City isn't just better than Batman: Arkham Asylum, it's better than most games on the market". Giant Bomb 5/5: "Gaming's greatest
