

Sony Online Entertainment LLC (SOE) today announced that players can now download and play its popular massively multiplayer online (MMO) action game DC Universe(TM) Online (DCUO) for free. Starting today, all PC and PlayStation®3 computer entertainment system players can create their own legendary superhero - or villain - and join forces with their favorite DC Comics characters, including Superman, Batman and the Joker to either save - or destroy - the planet. "We are confident that going free-to-play will expand the action combat experience of DC Universe Online by making the game more accessible to every type of player so they can choose to play the game their way," said John Smedley, President, Sony Online Entertainment. "With a portfolio that includes three successful free-to-play games - EverQuest II: Extended, Free Realms and Star Wars: Clone Wars Adventures - we have extensive knowledge and experience to apply to DCUO and are thrilled to
