

Another Villain has been added to the rouges gallery of the highly-anticipated Arkham City. Check out the video below, for more details. Deadshot will be part of a side mission where Batman tries to figure out who is on Deadshot's hit list and how to stop him. He will be missing some of his gear because he needed to sneak into Arkham City as a thug. Forward to 4:34, to check out "Deadshot". The story for Arkham City takes place approximately one year after the events of Arkham Asylum. Quincy Sharp, former warden of Arkham Asylum, has taken credit for stopping the Joker, and used the notoriety to become mayor of Gotham City. As neither Arkham nor Blackgate Prison are in any condition to detain inmates, Sharp buys out a large section of Gotham's slums and arms the perimeter with private military contractors from a group called Tyger in order to create "Arkham City".
