

We're now just days away from the highly anticipated four night DC TV crossover on The CW, and the network has released yet another promo featuring plenty of new footage. This one gives us our best look yet at the battle against the alien Dominators which will take place in Supergirl, The Flash, Arrow, and Legends of Tomorrow, and they definitely look like a pretty formidable threat to the heroes. The video also makes it clear that the Earth is at stake, though that was probably to be expected! Of course, the biggest draw here isn't the aliens or action (though both should be pretty amazing), but the interactions between the characters. Here, we get to see Supergirl and Heat Wave having a very interesting exchange, and well, it doesn't seem as if he's a big fan of the Girl of Steel's heroic moniker!
