

To say that director Brett Ratner is unpopular here on CBM is something of an understatement. I don't think that it's even the fact that his work on the third X-Men movie was THAT bad as it is his attitude in general, and that he seems to be, well, an asshat. The Tower Heist director did nothing to change that perception when he rammed both feet straight down his gob earlier this week. First in response to a passage in Olivia Munn's book that describes a run in with Ratner he claimed to have "banged" her and then forgot who she was. He later went back on this, simply claiming that "she was hot". Then it got even worse as when asked about his directorial style in an interview he said "rehearsal is for fags". And now after coming under fire from all direction he has unsurprisingly stepped down as the
