

Following the first two reviews, which were undeniably negative, the folks at Variety have released their thoughts on Warner Bros. and Martin Campbell's Green Lantern flick. Evidently lacking an actual rating, this review seems more mixed, though with the bad barely outweighing the good, read an excerpt below! Packing so much exposition that some viewers may require maps and flow charts, a sonorous voiceover introduces the Green Lantern Corps, a federation of alien warriors who use their extraordinary abilities for good. But an evil, soul-sucking force called Parallax is spreading its tentacles across the 3,600 sectors of the universe, striking fear even in the intrepid Lanterns, who draw their energy from the power of the will, fear's very antithesis. One of their top fighters, Abin Sur (Temuera Morrison), is mortally wounded by Parallax and realizes he must transfer his gifts to a new Lantern in the time that remains. For all
