

This is an interesting chat with the prolific director, but if you're only interested in the Man of Steel stuff, skip to the 4.15 mark. Perhaps the most interesting thing about it is the fact that Snyder seems to make a joke out of the fact that Clark Kent uses his glasses in order to disguise the fact that he's also Superman. This may just explain why British actor Henry Cavill was never spotted wearing the glasses in the many set pictures we saw during shooting last year. Check out the video (from "Last Call With Carson Daly") below and sound off with your thoughts in the usual place. STARRING: Henry Cavill as Clark Kent/Superman Amy Adams as Lois Lane Kevin Costner as Jonathan Kent Diane Lane as Martha Kent Michael Shannon as Zod RELEASE DATE: June 14th, 2013.
